

New Scholar Appreciation

MAISIN SCHOLAR AWARD

2021 - 2022

"I got a lot of good feedback from my volunteer [during the resume workshop]. One of the best things I learned was to follow up via email after an interview."

- Maisin Scholar

Deloitte has been a Circle the Schools Partner for eight years. This was the first year of partnership between Deloitte and the Maisin Scholar Award program. The Maisin scholarship is awarded to approximately 75 SFUSD seniors each year in pursuit of higher education, and helps them overcome the financial obstacles that stand in between them and their pursuit of their goals. Deloitte focused their partnership on building scholars' institutional knowledge to navigate college, career and life.

Volunteers supported a series of workshops that helped Maisin Scholars learn how to advocate for themselves and share their impressive accomplishments in a way that employers will understand. Scholars perfected their resumes and LinkedIn profiles, practiced interview skills and learned how to network in a 21st century environment. Some volunteers have continued to stay in touch with scholars they've worked with so that they can provide advice and professional opportunities.

To cap off a successful year of partnership, Deloitte volunteers funded and assembled goody bags for incoming Maisin Scholars, including handwritten cards and snacks. These bags will welcome the newest cohort of scholars as they participate in orientation workshops in the coming months. This partnership proved to be incredibly valuable this year, especially to our Maisin scholars, and we are excited to see what next year brings!
