

PARTNER IMPACT REPORT

Back to School Setup

New Relic has provided volunteer power and financial support for Guadalupe Elementary School and has become their trusted community partner over the past six year. This year marked the return of in-person learning, and New Relic remained dedicated to Guadalupe’s community, providing resources which made the year easier for not only students, but also staff and administrators.

New Relic employees volunteered at key Guadalupe events by hosting virtual Read Alouds for LatinX Heritage Month and Black History Month. The students loved the books volunteers read! New Relic also offered organizational support with Back to School Set-Up and a tech room cleanout. The support allowed for the school to cross some major to-dos off its list during a year of limited staff capacity.

On April 21, Guadalupe celebrated its Centennial Celebration and New Relic volunteers were there to support the activities of the day, continuing to show up as a community partner. The school was proud to showcase their history and unveil a new mural painted to commemorate the occasion. Having extra support allowed for teachers to enjoy the festivities rather than having to supervise. We are excited to see what next year brings for this partnership!

GUADALUPE ELEMENTARY SCHOOL

2021 - 2022

“For the past two years, New Relic has extended its support to Guadalupe Elementary School. It has been a pleasure working with the team of volunteers in various projects directly connected to the needs of the school. We appreciate the generous contribution of lunches during Teacher Appreciation Week! Thank you, New Relic!”

– Maria Agudelo
Guadalupe Principal
